

Diploma in Residential Surveying and Valuation

Key Features

- ✔ You'll be able to join RICS and undertake RICS HomeBuyer Reports, valuations and other condition surveys.
- ✔ There's a high demand for surveying services across the UK and there's a limited supply of new surveyors.
- ✔ A career in residential surveying offers great freedom and flexibility such as working for yourself or with an established company.
- ✔ It's vocational meaning you're taught real life skills – so when you finish you'll be ready to start your career and start earning fees.
- ✔ Gain a deep understanding of residential construction, pathology and valuation – essential skills that are desperately needed to look after the UK's 28 million residential properties.
- ✔ Study is part time, and can be completed in 24 months so you can continue to work in your current job.

Who is the qualification designed for?

The programme teaches you everything you need to become a competent residential surveyor with no previous experience. Therefore, it is suitable for anyone to undertake, however a background in the property or construction industry would be an advantage.

What are the entry requirements for the qualification?

Whilst there are no formal entry requirements, we recommend that you possess a good understanding of English and maths at an equivalent standard to GCSE level C.

What do our learners say?

"I was attracted to the course because it is run by industry leaders and it also gave me the flexibility to keep working in my current role while I was studying. I liked how quickly you could qualify if you were prepared to put the work in"

James Quinn, Diploma Graduate & Managing Director and Surveyor at Gooch and Burley Chartered Surveyors

How is the qualification delivered?

Training lasts for 12 months and is delivered via a mix of face-to-face and online learning. It includes two contact days a month at your chosen course location. Once the training is complete, you will then produce a portfolio of evidence for assessment. This will include 10 condition reports and valuations so that you can demonstrate your technical knowledge. There are also two multiple choice exams.

How much study do I need to undertake?

This depends on the relevance of your past work experience and your individual learning style. Most learners dedicate 10-15 hours each week to study.

What are the opportunities within residential surveying?

With the Diploma you will have many career options:

- Join a surveying firm – most surveying companies offer 9-to-5 employment so if you are looking for a salaried position joining an existing firm could be for you.
- Find work through a panel of surveyors – a surveying panel offers work to its members on a contract basis – perfect if you are looking for some flexibility with your workload.
- Self-employed – many residential surveyors decide to work independently, marketing their services and working hours that suit them best.
- Opportunities in other surveying fields – there are also many opportunities for further study and qualifications enabling you to provide a more diverse range of surveys and professional advice, such as full building surveys, listed buildings and party wall surveys.

What does the qualification cost?

The total cost of the Diploma if you pay upfront is £14,950 (inc. VAT). We have created several payment options to give as much flexibility as possible, you could spread the cost to as little as £277 a month. Please contact us for details.

Where is the course delivered?

Please check the Sava website or speak to one of our course advisors for specific details, however, we regularly provide the 22 training days for this qualification in the following locations (please note that regardless of location, 2 training days are delivered in Milton Keynes):

- Manchester
- York
- Nottingham
- Birmingham
- Milton Keynes
- Bristol
- Southampton

What about the career rewards?

£49,293

The average AssocRICS salary is £49,293 (source: RICS 2018 UK rewards and attitude survey).
