

Sava Technical Bulletin Edition 37 Released

We are pleased to announce the release of issue 37 of the Sava Technical Bulletin. This bulletin aims to bring you quality technical information that will help you in your day to day work.

Here's a full list of all the interesting and useful content you can read in this issue

- Cavity wall tie failure - a day on the tools
- Recommending further investigation in light of Hart v Large and the Home Survey Standard
- Professional Consultant's Certificate - what are they and when are they used?
- Indirect cold-water systems - health and safety implications

The bulletin can be [read here](#). You will need to sign in to Sava EDGE to read the bulletin. If you have not yet got an account, you can register for a free account, it only takes a minute.
