

Domestic Energy Assessor Training

Key Features

- ✔ Course aimed at those seeking opportunities or training as a Domestic Energy Assessor (DEA)
- ✔ Includes comprehensive DEA training material that leads to you completing your own assessment portfolio
- ✔ Use of RdSAP software whilst in training included at no extra cost
- ✔ The certificate is delivered through an online learning platform giving you flexibility as to where and when you undertake your learning
- ✔ Gives you the skills required to assess buildings and produce accurate Energy Performance Certificates (EPCs) for domestic dwellings

Who is the qualification designed for?

- ✔ Suitable for persons considering a career change, no prior experience is necessary
- ✔ Ideal for those who need to provide or understand and interpret EPCs as part of their daily duties
- ✔ The course is also designed for people with prior knowledge or experience of buildings, for example estate agents, builders, surveyors, heating engineers, architects, landlords etc.
- ✔ This course is ideal for adding an additional product or income stream to your existing services

Objectives

- ✔ Understand energy ratings and what an EPC is, as well as the wider professional considerations required in surveying and obtaining the necessary data from a property
- ✔ Recognise areas of customer service and legislation related to inspecting properties
- ✔ Identify the key construction and property features (including space and water heating) required to be included in an inspection for a Domestic Energy Assessment
- ✔ Be able to use the recommendations and produce Energy Performance reports using RdSAP software

How is the qualification delivered?

The training programme is delivered through Sava Learn, our online learning platform. This gives you complete flexibility as to where and when you undertake your learning. The training material is developed by qualified DEAs. You can enrol on this course at any time and work through the content at your own pace.
